DIFFERENTIATORS

- Four-layer FinOps methodology: Ownership Model, Tagging Taxonomy, Preventive Controls, and Allocation Engine developed to solve cloud cost attribution at the account/VPC level
- Six FinOps principles, four governance layers: IT + FinOps + Embedded Financial Governance in one framework
- 20+ years in federal Planning, Programming, Budgeting & Execution (PPBE)
- Cradle-to-Grave SCRM Framework
- Prime-Ready teaming posture

CERTIFICATIONS

- Service-Disabled Veteran-Owned Small Business
- MBE & Disadvantaged Business Enterprise

PAST PERFORMANCE

Defense Intelligence Agency, Open-Source Intelligence Integration Center (OSIC) 2023 – 2024

- ORTETINE supported the client and managed the Finance and Acquisition functional portfolio, investments management, and Capital Planning and Investment Control (CPIC)

National Geospatial-Intelligence Agency 2021 – 2023

- ORTETINE's CEO led cloud financial management for the MAVEN Smart System, a DoD AI/ML program, managing cloud financial obligations, budget execution, and cost attribution that directly shaped ORTETINE's FinOps governance methodology
